

1 MILLION DOLLAR TO CHARITY.

Once the collection is sold out, we will donate \$1 million to charity. The community is the heart of our project and will choose which charity the money goes to. We have set up a community wallet and a vote will be held after the public drops for which charity to donate.

We will also draw lots for 2 people who will accompany us (all expenses paid) when we will go to meet one or multiple charities to give them the money.

ROAD MAP

1. Welcome to Avatar foundation Club

Quality. Sharing. Humanity.

Our goal with Avatar Foundation is to help as many people as possible through our charity donation, allow women to have more visibility in the NFT by dedicating 50% of our collection to them and to build a long-term community. We really want to provide the best artwork and experience possible.

2. Building a strong community

Avatar Club is a community-based project! The community will choose where the 1M\$ will go. We have set up a community wallet and a vote will be held after the public mint.

We have also planned parties, weekly events and even a festival. Building out the longevity and community is our first priority.

3. Avatar x Futur Collaboration

We have planned collaborations with several committed artists who have the same values of sharing and humanity as the Avatar Foundation! We would like to develop a series in which each Avatar is made in collaboration with and under the artistic direction of a committed artist. We would create a special collection of unique Avatars created by the artists and all benefits from sales would be donated to them.

4. Post Launch Vision

When all of these stages are completed, we'll first take care of maintaining the Avatar Universe. Our goal is to make sure your investment is profitable. We will set up several strategies (fusion, reduce supply, marketing & community push simultaneously) after the launch to increase the floor price.

5. Futur of Avatar

We planned to do other drops around charity, but let's keep the mystery...

We will also develop a MMORPG based on the next chapters. Holders of the Avatar foundation Club collection will have a massive advantage in terms of resources due to seniority. They will be able to use & trade their assets on a marketplace with cryptocurrencies. The rest of the fate of this project will be determined by YOU, the community! Together, we plan to make a fun and loving project ❤️

PERKS :

Community Influence

Holders will have access to a private chat, where they can vote, discuss about the future of the foundation, and build a new paradigm of governance.

Long Term

Avatar Foundation Club is the first project that combines charity and parity, and we're not stopping there. Our project is designed to be in constant evolution for years to come.

Innovation

With the Avatar club, ART becomes useful. You will discover different ways to use your goods in the next phases.

Charity :

The 1M\$ is just the first part of what we want to do. Avatar foundation club wants to be a part of making the world a better place by helping others, with multiple others actions.

Who are we ?

A passionate couple

Hi! We are Raphael and Manija, a couple passionate about art and humanitarianism. We have participated in several humanitarian projects including the construction of a school in Afghanistan.

Entrepreneur in E-commerce, we launch our collection of NFT which allows us to combine our love for art and charity.

FREQUENTLY ASKED QUESTIONS :

WHERE CAN I VIEW MY NFTS ?

Once your NFT is minted simply connect to your open sea account to view your Nft's.

How can I use my nft ?

You will be able to use your NFT as an avatar in the metaverse and in our future projects.

Why did you choose Avatar ?

The name 'Avatar' and the design chosen is inspired by the movie, in which the inhabitants live in community, helping each other. What we want to convey through our collection is that sharing is the basis of humanity and that we must be the most needy.

How many avatars can I mint?

3 per wallet.

What are your secondary royalties fees?

Our secondary royalties fees are 10%
